To improve health through leadership, service and education.

This is to provide your Board with the bi-monthly report on the status of transitioning to the new LAC+USC Medical Center (LAC+USC). This report is not the full monthly operational report but an interim report of Emergency Department and hospital admission volumes and specialty services with trends for the month of November 2010.

Census Trending (ADC includes Psychiatric & Newborn Patients)

The Average Daily Census (ADC) for the month of September was 581 out of 671 licensed beds, an estimated 85% utilization rate (86% occupancy). The census for Medical/Surgical units was an estimated 98% utilization rate (100% occupancy) for November 2010.

Emergency Department (ED) Indicators and Specialty Services

Attachment #1 demonstrates the trending of ED registration as well as admissions to both the ED and the hospital. The number of hospital admissions this period was 2772 which reflects a 2% decrease from October 2010.

Attachment #2 shows the ADC trends for specialty care areas of OB/GYN, Pediatrics, ICU, Psychiatry, Jail and Burn Units with no significant changes.

Hospital Transfer Agreements

As instructed by your Board, we are continuing to seek additional transfer agreements with community hospitals to help address the overcrowding in our hospital. We are in the process of finalizing a transfer agreement with a second facility. The agreement has been transmitted to that facility and is under review by its outside legal counsel. We expect to execute the agreement under the Department's delegated authority within the next two weeks, with a targeted start date of January 1, 2011.

If you have any questions or need additional information please contact me at (213) 240-8101.
